To operate successfully within financial services, industry participants must have a comprehensive understanding of how products interrelate and the larger influences driving financial markets.

This workshop is designed for new entrants to the financial services industry seeking a comprehensive understanding of the operations of the industry, the financial products used within the industry and the markets for these products. For more information please visit our website.

www.kaplanprofessional.edu.au
In an increasingly global world, the financial services industry has led the way in the creation of borderless markets servicing customers around the world. The Australian industry plays an ever-increasing role within global financial services markets, trading a sophisticated range of financial products and services to investors both locally and offshore.

LEARNING OUTCOMES

› Gain a practical understanding of financial products and the interrelationships between the markets for these products
› Develop an understanding of the framework in which financial markets operate and the way they are influenced by both internal and external dynamics

TOPICS COVERED

› Australian financial markets
› Financial products and their interrelationships
› Markets and their movements
› Global markets
