Understanding Financial Markets
Workshop outline

Understanding Financial Markets

Workshop overview

In an increasingly global world, the financial services industry has led the way in the creation of borderless markets servicing customers around the world. The Australian industry plays an ever-increasing role within global financial services markets, trading a sophisticated range of financial products and services to investors both locally and offshore.

To operate successfully within financial services, industry participants must have a comprehensive understanding of how these products interrelate and the larger influences driving the financial markets.

New entrants to the financial services industry seeking a comprehensive understanding of the operations of the industry, the financial products used within the industry and the markets for these products.

Learning outcomes

Upon completion of this workshop, students should will:

• gain a practical understanding of financial products and the interrelationships between the markets for these products
• also develop an understanding of the framework in which financial markets operate and the way they are influenced by both external and internal dynamics.

Topics covered

• Australian financial markets
• financial products and their interrelationships
• markets and their movements
• global markets.
