Section 2 — Academic details

2.1 Subject overview

This subject develops students' understanding of estate planning as an integral component of ethical holistic personal financial advice. It examines the role of the clients' professional advisers and legal representatives in the establishment, management and administration of the clients' estate and non-estate assets and business and legal structures. The impacts of death, incapacity, dependency, relationship breakdown, insolvency and taxation on clients' estate planning objectives will be explored.

Students will develop strategies and solutions to address clients' personal and business estate planning risks and meet their estate planning objectives.

2.2 Subject learning outcomes

On successful completion of this subject, students should be able to:

1. Discuss the financial adviser's role when providing ethical and effective estate planning advice
2. Demonstrate knowledge of the requirements and consequences associated with estate planning objectives
3. Evaluate the impact of significant events on personal, financial and business estate planning objectives
4. Formulate strategies to manage the risks associated with a clients' personal and business succession planning.

2.3 Topic learning outcomes

Topic 1: Advising clients on estate and succession planning

On successful completion of this topic, students should be able to:

- describe the importance of estate planning
- outline how estate planning supports the different domains of financial planning
- discuss the attributes of an effective estate plan
- identify the key professionals involved in an estate plan and describe the role each professional plays
- explain the implications of the Australian Privacy Principles for the sharing of information between professionals and conflicts of interest.

Topic 2: Estate creation and management

On successful completion of this topic, students should be able to:

- explore how testamentary intent can be conveyed and key issues relevant to ensuring a valid and effective will
- discuss what assets do and do not form part of a person's estate (including their digital estate)
- explain the role and duties of key stakeholders upon death of the will maker – executor, administrator, and trustee
- describe the key issues relevant to the challenging of a will
- outline the implications of someone dying without a valid will.

Topic 3: Planning for incapacity and dependency

On successful completion of this topic, students should be able to:

- outline the different types of powers of attorney that are available
- explain key issues to consider when making a valid power of attorney
- identify key issues relevant to guardianship
- explain estate planning issues and strategies relevant to beneficiaries with special needs.

Topic 4: Structuring and taxation of assets and philanthropy

On successful completion of this topic, students should be able to:

- examine key issues relevant to the succession of assets held personally and in entities such as companies and trusts
- evaluate the general implications of ownership structures in estate planning
- discuss practical considerations for charitable giving.

Topic 5: Estate planning for superannuation

On successful completion of this topic, students should be able to:

- describe to whom a death benefit can be paid, and the tax impact relating to the type of beneficiary, and lump sum or income stream payment
- discuss the importance of maintaining up-to-date documentation such as binding death benefit nominations or trust deeds for self managed superannuation funds
- outline strategies to maintain estate intentions.

Topic 6: Family law and insolvency impacts and strategies

On successful completion of this topic, students should be able to:

- discuss the use of testamentary and discretionary trusts in the management of assets at risk due to family law proceedings
- discuss the use of testamentary and discretionary trusts in the management of assets at risk due to bankruptcy.

Topic 7: Business succession strategies and planning

On successful completion of this topic, students should be able to:

- discuss what is meant by business succession planning and the process for developing and implementing a business succession plan
- evaluate the benefits of a properly prepared business succession agreement and the problems that can arise without an agreement
- demonstrate understanding of the impact of different business structures on the transfer of a business, including rural property
- discuss different buy–sell agreement options, potential funding arrangements, and the legal documents that facilitate the plan
- evaluate the basic taxation implications of the various business succession strategies and understand when clients ought to be referred for specialist taxation advice.

Topic 8: Implementation and administration of estate plans

On successful completion of this topic, students should be able to:

- discuss the estate planning issues raised by a range of life events, such as death and incapacity
- demonstrate understanding of the obligations of various stakeholders in responding to life events
- evaluate the role of the financial adviser in addressing estate planning scenarios
- formulate appropriate estate planning advice and guidance.
